Frank Schatzing : Breaking News before purchasing it in order to gage whether or not it would be worth my time, and all praised Breaking News:

Fascinating thriller and historical book about Israel and the Middle East By Kunde For those seeking a non-complacent view on the situation in the Middle East and the Israel-Palestine conflict, for those with open minds ready to understand the challenges facing the state of Israel, for those interested in understanding the Arab position and for those wishing to read a fascinating thriller impossible to put down. A necessary book, an inside view in Arik (Ariel) Sharon's life and in the decisions required from early Israel leadership. Gaza, West Bank, Occupied Territories... when you have read the book you will understand. Silent prayer that the book will also be read by Arab readers and contribute to a better understanding. Thank you Frank Schätzing. 4 of 7 people found the following review helpful. A great book that deserves to be published also in English! By Orion I'm reading it in the Italian translation, and I'm really concerned on why there has been not yet the English (or American) one? Is the Jewish mafia blocking it? Don't worry, the majority of fast-food American eaters will not read this well written, rich of detail and exciting thriller story! Yes, because Schatzing likes to check things out without being complaisant and has this tremendous way of writing that will catch your attention from the beginning and release it only when you finish the book. Some of my friends will be really interested in reading it, but they do not speak German or Italian...
